9–10	Audience / ambience L-R (for recording)	Condenser pair	Tall	festivals

PA & CONTROL

- Professional **line-array PA** (d&b, L-Acoustics, Meyer or equal), sized for full, even coverage of the whole audience area, incl. front-fills and delays where needed
- Subwoofers, clean headroom — **no distortion at full show level**
- Digital console FOH (Yamaha CL/QL, DiGiCo, Avid S6L or equal) + separate monitor console for large stages
- Experienced **FOH engineer + monitor engineer** + stage tech for the whole soundcheck and show
- Multitrack recording of the show (copy to the artist)

STAGE & BACKLINE

- Stable, level, covered stage (roof & rain protection outdoors)
- Risers 2 × 1 m × 40 cm for percussion (and violin if quartet)
- Armless chairs**, stable, no wheels — 1 per musician
- Monitor wedges: 1 per musician, separate mix each; IEM option on request
- Grounded 230 V power at every position (2 × quad box each)
- Guitar stands, towels, drinking water at every position
- Lighting: warm wash (amber/gold), no strobes, LD on show

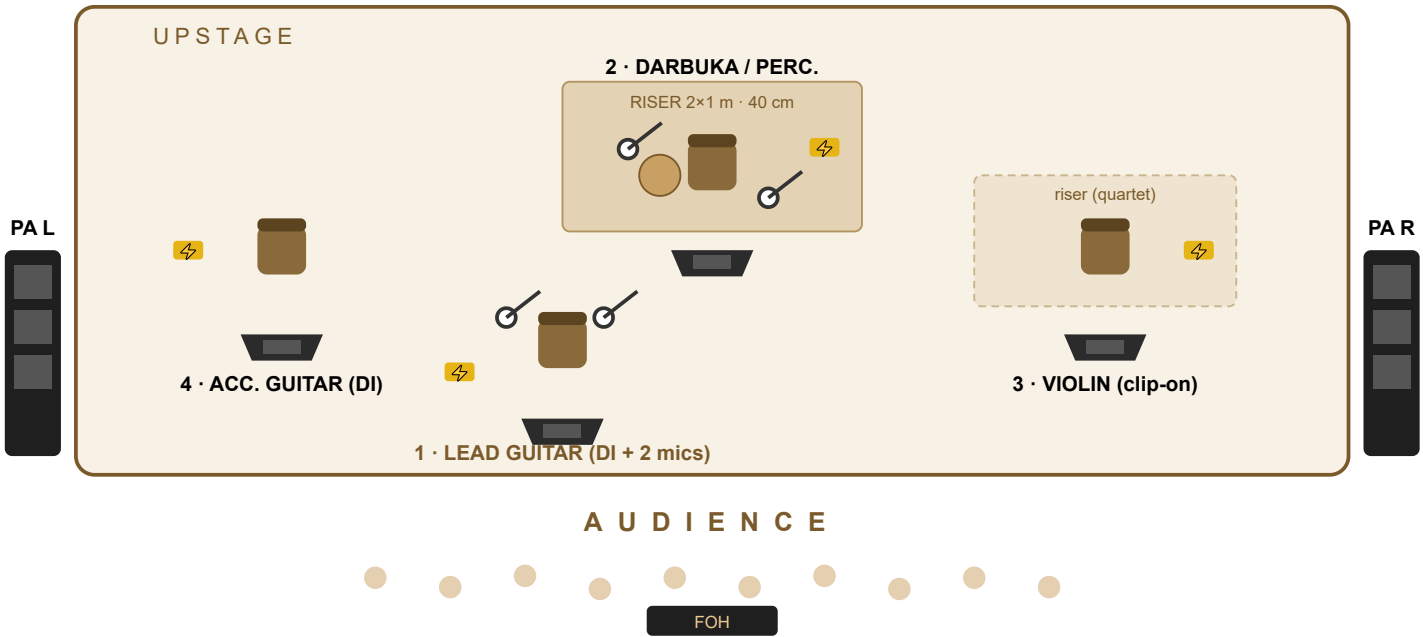

Booking & production: Tal (manager) · guitardarwish@gmail.com · WhatsApp +1 (260) 346-7218 · darwishguitar.com
Any deviation from this rider must be approved in writing by management before the event.

STAGE VIEW — QUARTET SET-UP (ILLUSTRATION)

Black lines = audio cables (mics / DI → stage box → snake to FOH) · yellow dashed = power · red boxes = DI · flown line arrays L/R + subwoofers

STAGE PLOT (TOP VIEW)

— chair · ▴ monitor wedge · ○ microphone · ⚡ power · Solo = position 1 · Duo = 1–2 · Trio = 1–2 + 3 or 4 · Quartet = all
